

Business Solutions

MCforNC is a nonprofit consulting firm providing consulting services to other nonprofits. Our mission is to provide students with relevant work experience while helping our nonprofit community be sustainable.

Web Design

Your website is how you showcase your organization to the world-your past, current, and future investors, clients, and/or volunteers. Thus, it is critical to ensure that your web design truly reflects the brilliance of your organization's work.

- Is your current website "not so current" anymore?
- Do you want to add more features on your website?
- Do you wish that the online forms your receive would automatically integrate into a database?
- Do you want an easily maintainable and upgradable website?
- Do you need a low-cost revamp of your current website?

MCforNC can help you develop or re-develop a customized strategic technology plan to ensure your organization's technology infrastructure is exactly aligned to help you meet your needs and reach your goals. Because we customize our solution for each of our clients, you can rest assured that our solution will be in harmony with your organization's budget and staff expertise.

How does the process work?
